

Life – Timeline

In the space below a timeline of life has been created, breaking life down into four time periods. The first section is from birth to 15 years old. The second section is from 16-30. The next section is from 30-45, and the last section is from 46-present. Your task is to jot down events, places and people of significance in each time period.

Birth-----15

16-----30

30-----45

46-----Now
